

Propagation of plants at the Elysium Nursery between January and June 2006

Variety	Seeds / Cuttings	Germinated/ repotted	remarks
Aleppo Pine	0	1148	successful germination from autumn 2005
Ash Tree	60	not yet repotted	trial
Asphodel	151	not yet repotted	trial
Bay Laurel	280	not yet repotted	
Caper	48	not yet repotted	
Carob	379	69	
Chaste Tree	170	not yet repotted	
Common Elder	0	not yet repotted	
Esparto Grass	2162 sowed	not yet repotted	
	211 by division	211	
Evergreen Honeysuckle	302	not yet repotted	
Evergreen Oak	600	not yet repotted	
Evergreen Rose	28	not germinated	trial
Golden Samphire	0	not yet repotted	
Perennial Hyoseris	0	24	
Hoary Rockrose	0	100	
Judas Tree	1007	6	seeds probably eaten by animals
Lentisk	300	300	
Maltese Cliff-Orache	0	0	
Maltese Everlasting	0	0	
Maltese Rock-Centaury	0	318	
Maltese Salt-Tree	51	14	trial
Maltese Spurge	51	66	trial
Med. Buckthorn	0	failed	
Med. Willow	56	not yet repotted	trial
Myrtle	186	0	
Rosemary	500	150	Rosemary very fastigious
Olive leaved Germander	150	0	failed
Sandarac	352	305	
Sea Daffodil	0	0	
Shrubby Orache	0	0	
Silvery Ragwort	0	0	
Tamarisk	2604	0	sticked directly in ground
Tree Spurge	51	0	
White Poplar	340	0	trial
Wild Thyme	300	170	
Yellow horned Poppy	120	not yet repotted	
Wolfbane	51	0	trial with cuttings failed

Note: a number of trials have been attempted for the propagation of plants, the propagation techniques of which are currently unknown. The Foundation is exploring various techniques in the said trials, e.g. trying the propagation with cuttings in different seasons of the year.
